

Medicaid Payment for Primary Care Services

Effective with dates of service January 1, 2013, through December 31, 2014, Medicaid payment rates to primary care physicians for furnishing primary care services will be no less than 100% of Medicare payment rates for 2013 and 2014 respectively (or if greater, the Medicare payment rate in effect in July 1, 2009). Primary care physicians are defined as physicians with a primary specialty designation of family medicine, general internal medicine, pediatric medicine, or a subspecialty related to those specialties. Advanced practice clinicians under the personal supervision of an eligible physician may also be eligible and reimbursed at 75% of the increased rate. Increased payments do not apply to Rural Health Clinic and Federally Qualified Health Center services. Reference [General Bulletin 13006](#) published in January 2013 for further information.

Self-Attestation Form

The [Certification and Attestation for Primary Care Rate Increase](#) form can be found under the Provider Information heading on the [Forms page](#) of the KMAP website and should be submitted to the following address:
