Influenza Virus Vaccines for Intranasal Use

Effective with the processing date of January 25, 2019, and retroactive to dates of service on and after September 1, 2018, codes 99064* and 90672 are covered for beneficiaries from 2 to 49 years of age.

*Note: Code 99064 is only appropriate to use during a pandemic.

In August 2018, the Advisory Committee on Immunization Practices (ACIP) added FluMist® Quadrivalent into their recommendations for the 2018-2019 influenza season. The Centers for Disease Control and Prevention (CDC) website states: *One LAIV4 product, FluMist Quadrivalent, is expected to be available during the 2018–19 influenza season. LAIV4 is licensed for persons aged 2 through 49 years.*

*Note: The effective date of the policy is January 25, 2019. The implementation of State policy by the KanCare managed care organizations (MCOs) may vary from the date noted in the Kansas Medical Assistance Program (KMAP) bulletins. The KanCare Open Claims Resolution Log on the KMAP Bulletins page documents the MCO system status for policy implementation and any associated reprocessing completion dates, once the policy is implemented.
