HCPCS Code Billing Updates

Effective with dates of service on and after November 1, 2019, Not Otherwise Classified (NOC) drug codes may not be used when other appropriate codes are available (e.g. C-series or J-series codes), even if this results in using a code that is not covered by KMAP.

NOC drug codes should only be used when no other appropriate drug code can be used based on the HCPCS guidelines.

C-series codes can only be reported for outpatient facilities. Billing of any HCPCS code is not a guarantee of coverage or payment status.

Note: The effective date of the policy is November 1, 2019. The implementation of State policy by the KanCare managed care organizations (MCOs) may vary from the date noted in the Kansas Medical Assistance Program (KMAP) bulletins. The KanCare Open Claims Resolution Log page documents the MCO system status for policy implementation and any associated reprocessing completion dates, once the policy is implemented.

Note: Refer to the CPT® codebook for complete descriptions.
