

## KMAP Provider Enrollment System Upgrade

The Kansas Medical Assistance Program (KMAP) is implementing the next phase of the Kansas Modular Management System (KMMS) Provider Enrollment Wizard effective on December 31, 2018.

During the upgrade, there is a short period of time when providers will not be able to submit an application or revalidation. This time is needed to allow for the upgrade of the current system.

Applications submitted before 5:00 p.m. on December 3, 2018, will be processed. The KMAP Provider Enrollment team will work with providers that need to make corrections to these applications during the system upgrade period.

**The following links were intentionally disabled at 5:00 p.m. on December 3, 2018, to prevent new submissions during the upgrade period.**

[Start a new application](#)

[Resume an application](#)

[Start a revalidation](#)

**For applications returned for corrections, providers can follow the link supplied in the email notification to submit the corrected applications. Providers must respond to communications from the Provider Enrollment team immediately to complete any corrections. Failure to respond by 5:00 p.m. on December 17, 2018, will result in the expiration of the application, and the provider will need to start a new application in the KMAP Provider Enrollment Wizard on or after December 31, 2018.**
